

Tuesday 11 April 2023, 7:45 am to 5:30 pm

Technical Visit 2

Gouda

On April 11, 2023, we are planning a factory tour to Mokveld in Gouda, The Netherlands. This will be a technical tour with discussion on critical service control valve and check valve applications. Estimated walking distance, 3 km. The 1½ hour during lunch will be spent enjoying the town of Gouda.

Say cheese! Welcome to Gouda, the city of cheese in the Netherlands. However, Gouda has much more to offer than cheese alone. There are plenty of things to do and discover in this beautiful historic city full of trendy hotspots and passionate people. From The Markt, the central square with its iconic town hall to the beautiful stained-glass windows of the Sint-Jans church and from street food to the first Fairtrade street in the Netherlands, old and new meet and merge in Gouda. In other words, the perfect place to go for a city trip.

Programme:

- 7:45 take train in Eindhoven
- 9:15 arrival in Gouda
- 9:15 – 16:00 factory tour at Mokveld, 1½ hour lunch, and city walk in Gouda
- 16:00 take train in Gouda
- 17:30 arrival in Eindhoven

Cost of train: € 43.40

Registration (before March 31):

Send a message to Frank Knowles Smith III at surge@pipetechinc.com . Maximum 20 participants.
